

How to Order the Official Lapel Pin

Start Here

Go to:

[LapelPinNow Die Struck Pin Order Page](#)

Step 1 – Select Pin Type

Choose:

Die Struck Pin

Step 2 – Select Pin Shape

Choose:

Custom Shape Lapel Pin

This allows the pin to follow the shape of the approved artwork rather than a standard circle, square, or rectangle.

Step 3 – Select Pin Size and Quantity

Pin Size: 2.00 inch

Enter the quantity needed for your order.

Step 4 – Select Metal Color

Choose:

Antique Nickel Plating

This is the finish used on the original production run.

Step 5 – Select Fixing

Choose:

Butterfly / Military Clutch

This is the standard pin back used on the original order.

Step 6 – Select Packaging Preference

Choose:

Poly Bag

Each pin will be individually packaged in a poly bag.

Step 7 – Select Pin Upgrades

No upgrades required

Leave all upgrade options unchecked unless specifically approved.

Step 8 – Upload Artwork

Select:

Front – Upload My Artwork

Upload the approved pin artwork file.

Before proceeding, verify:

- ✓ Artwork is the approved version
 - ✓ Artwork is centered and sized correctly
 - ✓ No changes have been made to the design
-

Step 9 – Select Delivery Date

Choose the delivery date that best fits your timeline.

Standard delivery is typically sufficient unless a rush order is required.

Final Checkout

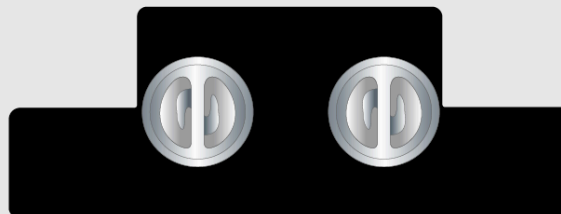

Enter your shipping and billing information.

Review the order carefully before submitting:

- Pin Type: Die Struck
- Shape: Custom Shape
- Size: 2.00"
- Finish: Antique Nickel Plating
- Backing: Butterfly/Military Clutch
- Packaging: Poly Bag
- Upgrades: None
- Artwork: Approved file uploaded

After checkout, LapelPinNow will provide a digital proof, it should look like the image below, for approval before production begins.

- Metal Color : Antique Nickel Plating
- Pin Size : 2.00 inch
- Fixing : Butterfly/Military Clutch
- Packaging Preference : Poly Bag

Order Number: 884052066

Antique Nickel Plating

 Raised metal

 Recessed Metal

1) Pls note that if the lapel pin has the raised metal part and the recessed metal part. Although the raised metal part and the recessed metal part are shown in two different and more contrasting colors, it is only to better distinguish the raised metal and the recessed metal part in the proof, in the actual product they will be the same metal plating color.

2) The color of metal color show in the proof is not the actual metal color, only for distinguish. Pls refer to the actual metal color.
